

It is surprising that we managed to find wild tomatoes and wild eggplants!

You are now back to safety in Panic house

The land around the village was all cultivated fields before the monsters invaded

Do you like
ratatouille?

It has eggplant,
tomato, mushroom,
and potatoes.

Potatoes?

We did not
collect any
potatoes!

This village
farms potatoes on
top of buildings
and walls

Out of reach of
the monsters

Potato sacks
line our walls

to grow the carbs
we need to survive

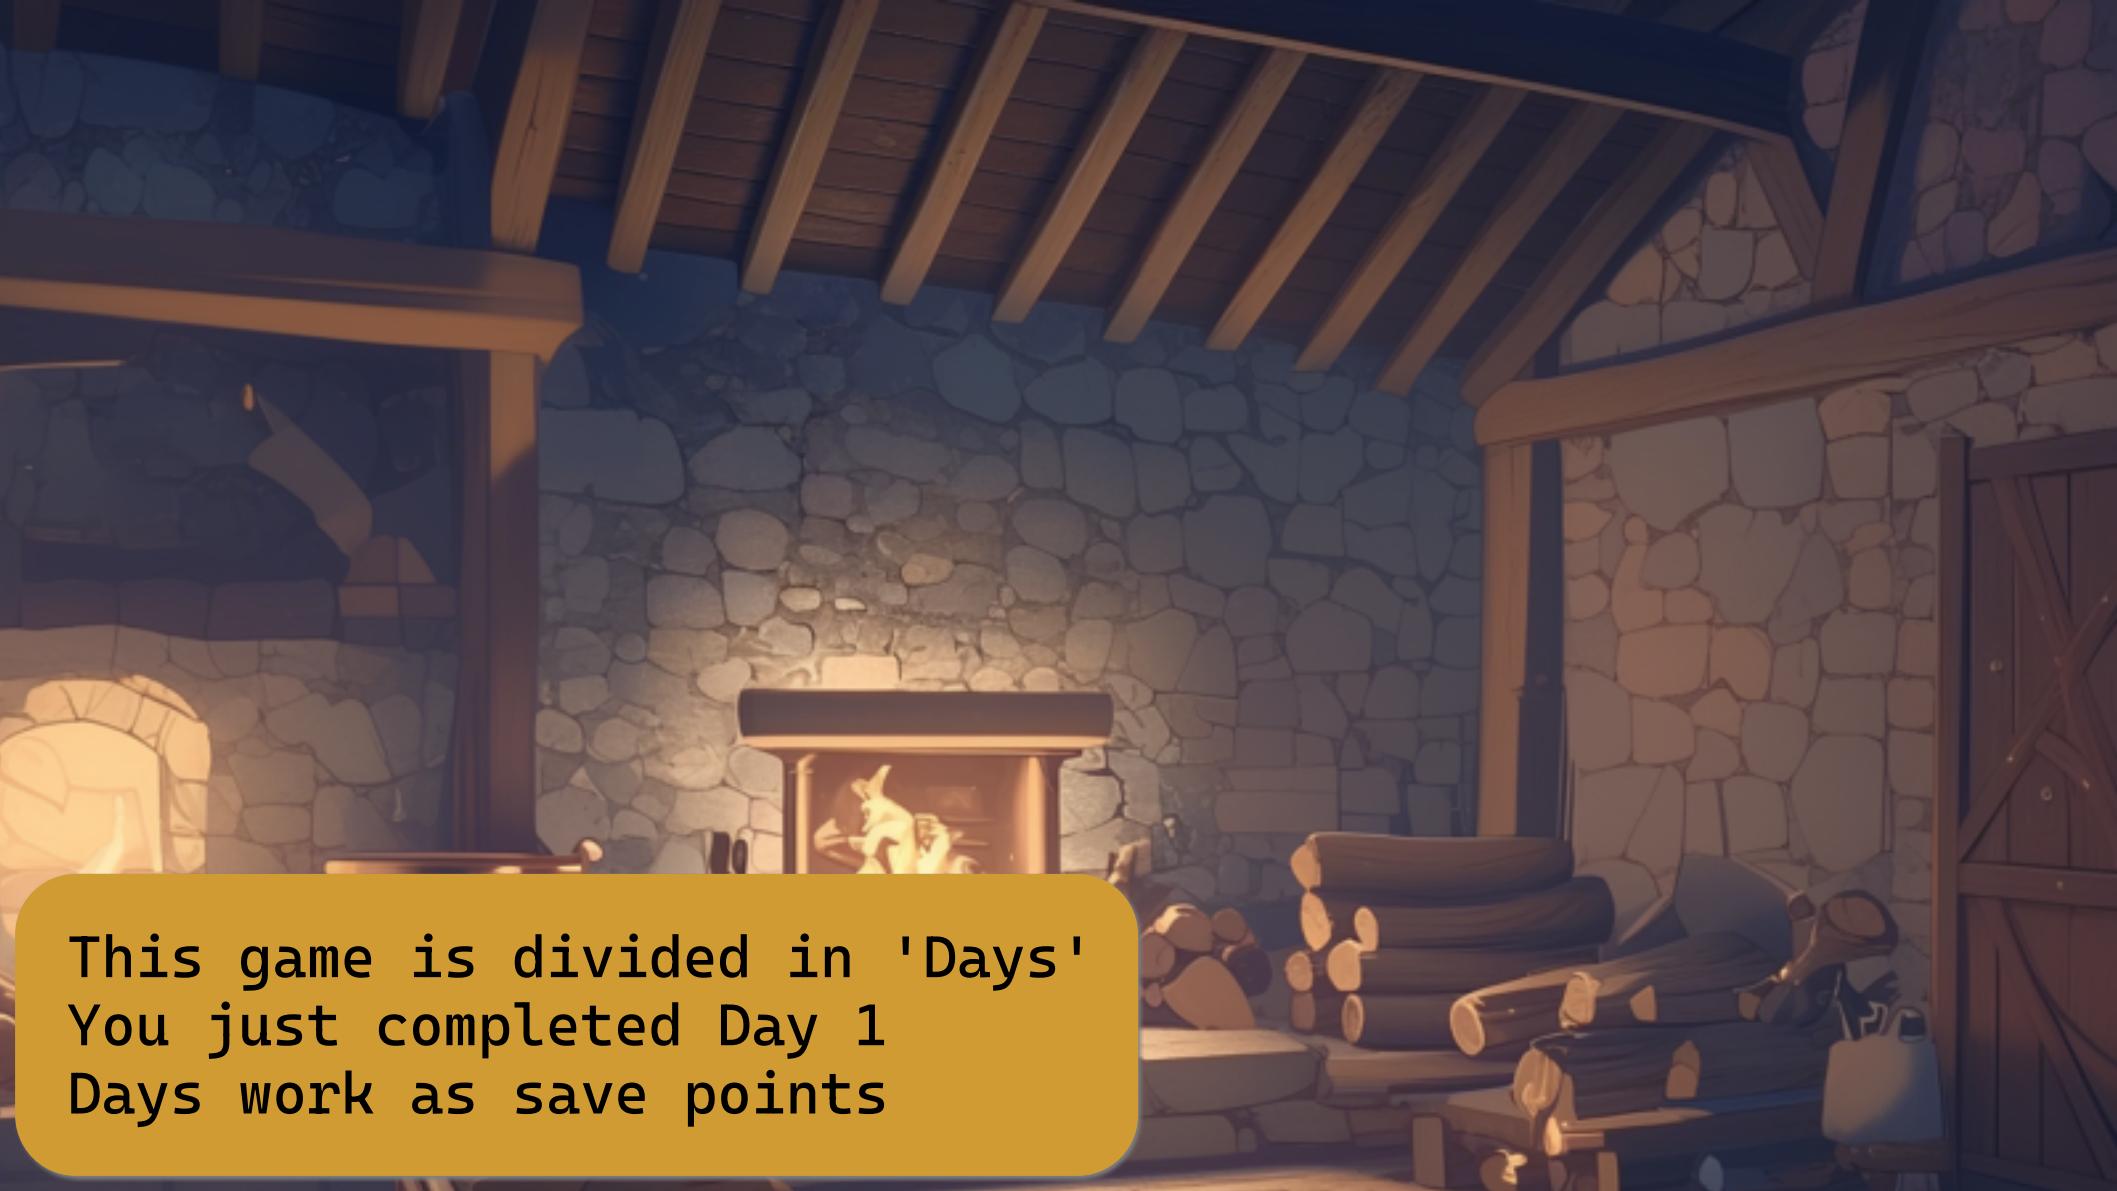

Wow, that
is pretty
smart!

With the sweet, savory taste of the ratatouille still lingering, they drifted off to sleep

The night passed peacefully, with no sign of danger. By morning, they woke up refreshed, ready to face a new day

This game is divided in 'Days'
You just completed Day 1
Days work as save points
